INDEX TO VOLUME 12

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles, correspondence, and society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters, B, O, and S, respectively.

PAGE

Abnormality, apparent unilateral absence of sigmoid sinus noted at operation.....*339

Abscess, enormous, of frontal lobe following infection of frontal sinus; operation; recovery 544
in recessus pharyngeus with thrombosis of cavernous sinus..... 251
nasopharyngeal: report of 155 cases.... 535
of brain..... 261
of brain, from standpoint of otolaryngologist 115
of brain, importance of history in diagnosis of..... 858

Acoustic Nerve: See under Nerve

Adenoid sponge holder.....*376

Adenoma of bronchus.....681, 843

Adrenalin, cases of idiosyncrasy to preparations of..... 683
epinephrine probe test in traumas of skull and brain, diagnostic value of.....*585

Allergy: See Anaphylaxis and Allergy

Alveolar processes, osteoplastic resection of both alveolar processes according to Kocher 681

Amaurosis: See under Blindness

American Board of Otolaryngology....111, 720

Amygdalectomy: See Tonsillectomy

Analgesia: See Anesthesia

Anaphylaxis and Allergy; advances in field of allergy as related to otolaryngology during years 1929 and 1930....*650
allergic conditions of nose and throat; clinical considerations.....545, *799
allergy and its relation to inflammatory diseases of paranasal sinuses..... 396
asthma; pathology of allergic tissue as seen in nose and in accessory sinuses..*785
deformity of face caused by nasal allergy in childhood.....*493
general allergic principles.....545, *804
general principles of treatment.....546, *813
nasal allergy as related to hyperesthetic rhinitis and hay-fever..... 405
pathology of allergic tissue as seen in nose and accessory sinuses..... 545
sudden allergic reactions localized in antrum 114

Anesthesia, influence of general narcosis and of local anesthesia on blood pressure in otolaryngologic surgery..... 539
modified Neumann's method for inducing analgesia 682
spinal, in mastoid surgery.....*591

Angina, agranulocytic angina, report of a case with apparent recovery.....*439
agranulocytosis 536
blood in various anginas.....*366, 552
Vincent's: fusospirochetic otitis..... *49

Angina—Continued PAGE
Vincent, hexylresorcinol in.....*525

Angioma, rare, of ear-drum, auditory canal, face, mouth, tongue, pharynx and larynx.....*246

Anomaly: See Abnormality

Antrum, conservative treatment of chronic maxillary sinusitis..... *18
dentigerous cyst of antrum of Highmore with unusual characteristics.....*311
dentigerous cyst of upper jaw involving antrum *290
direct examination of maxillary sinus by means of endoscopy 254
infection involving pharyngo-maxillary space *248
pathology of chronic sinusitis.....*561
polyp, unusually large *84
radical maxillary sinus operation (Caldwell-Luc); summary of clinical and histologic observations on 100 cases... *63
sudden allergic reactions localized in.... 114
treatment of maxillary sinusitis..... 251

Aorta, unextracted foreign body penetrating aorta of infant..... 544

Aphonia, hysterical, new concept of..... 540

Apparatus: See also Instruments
bronchoscopic specimen collector set..... 838
for roentgenography of sinuses.....*822

Appendicitis following tonsillectomy; report of 2 cases *67

Aqueduct of cochlea, comparing anatomic studies on aqueduct of cochlea and its relation to subarachnoid space in brain 533

Asphyxia, treatment in adult and in newborn *23

Asthma, etiology; relation of sinus infection to asthmatic attacks *72
general principles of treatment of allergy *813
pathology of allergic tissue as seen in nose and in accessory sinuses.....*785
rational rhinological operative treatment for asthma 832, 860

Atelectasis: See Lung, collapse

Audiograms, interpretation of.....*760

Auditory Organ: See Ear

Babbitt, J. A.: Agranulocytic angina, report of case with apparent recovery...*439

Ballenger, H. C.: Appendicitis following tonsillectomy *67

Barlow, R. A.: New concept of hysterical aphonia 540

Barnhill, J. F.: What climate is best for diseases of upper respiratory tract..... 542

Baum, W. W.: Roentgenography of sinuses; description of new apparatus.....*822

Berger, M.: New tonsil forceps.....*376

Blastomycosis, primary, of tongue.....*184

Blood in various anginas.....*366, 552
pressure, influence of general narcosis and of local anesthesia on, in otolaryngologic surgery 539

PAGE

Bone conduction, increased, in tuning fork experiments 533
conduction, studies in..... 718
decalcification of temporal bones; use of x-rays for determining when decalcification is complete *14
picture of otosclerosis *608, 686
sporothrix infection involving bones of face 552
transplant, histologic examination of 15 year old transplant 400

Book Reviews:

Cancer of the Larynx; St. C. Thomson and L. Colledge 719
Chronic Nasal Sinusitis and Its Relation to General Medicine; P. Watson-Williams 553
Diathermy, Medical and Surgical, in Oto-Laryngology; D. McKenzie..... 554
Diseases of Ear, Nose and Throat, Medical and Surgical; W. L. Ballenger 126
Handbuch der Röntgenkunde. Volume 2: Otologische Röntgendiagnostik; E. G. Mayer 719
Mental Aspects of Stammering; C. S. Bluemel 720
Oral Diseases. A Practical Treatise Offering Diagnostic and Therapeutic Aid to the Practitioner of Medicine and Dentistry; J. L. Zemsky..... 861

Boot, G. W.: Abscess of brain..... 261

Brain abscess 261
abscess from standpoint of otolaryngologist 115
abscess, importance of history in diagnosis of 858
enormous, of frontal lobe following infection of frontal sinus; operation; recovery 544
neuro-otologic observations in concussion of 859
trauma; diagnostic value of epinephrine probe test in traumas of skull and brain *585

Bronchitis, peanut, experimental studies in 845

Bronchoscope, improved, for new-born infants 839
new 840

Bronchoscopy, bronchoscopic specimen collector set..... 838
observations on obstructive pulmonary atelectasis 852

Bronchus, adenoma of.....681, 843
benign bronchial neoplasms; bronchoscopic aspects *739, 840
bronchoscopic observations of enlarged tuberculous bronchial glands.....*627
neoplasms, clinical features.....*727, 840
neoplasms, roentgenologic aspects...*732, 840
neoplasms; surgical aspects.....*603, 841

Butler, H.: Hexyiresorcinal in Vincent's angina *525

Caldwell-Luc radical maxillary sinus operation *63

Cancer: See also Sarcoma; Tumor; etc.
lateral transthyroid pharyngotomy, Trotter's operation, for malignancies of laryngopharynx 547
malignant growths of lung, bronchoscopic diagnosis *747, 840
of auricle, results of surgery and surgical diathermy in 250
of larynx, electrodesiccation and radium in *39
of larynx, tannin in..... 395
of tongue, surgical treatment of..... 836
primary, of mastoid with cholesteatoma.. 401
primary cholesteatoma of sinuses and orbit; report of case of many years' duration followed by cancer and death *44

Cancer—Continued PAGE
primary, of trachea.....*446
relation between carcinoma of ear and cholesteatoma 535

Cannon, P. R.: Reticulo-endothelial system as a defensive mechanism..... 401

Cardiospasm: See under Stomach

Carmody, T. E.: President's address..... 838

Carter, W. W.: Transposition of section from auricle for correction of nasal defect *178

Casselberry prize fund..... 112

Cavernous sinus thrombosis with abscess in recessus pharyngeus..... 251
Cellulitis, orbital, diagnostic problem in... 398

Chamberlin, W. B.: Dysphagia of septic origin resembling foreign body in esophagus 546
Xerostomia; is it related to vitamin deficiency? 858

Childrey, J. H.: Primary blastomycosis of tongue *184

Cholesteatoma, primary carcinoma of mastoid with 401
primary, of sinuses and orbit; report of case of many years' duration followed by cancer and death..... *44
relation between carcinoma of ear and cholesteatoma 535

Clausen, S. W.: Experimental studies in peanut bronchitis 845

Clevenger, W. F.: Melanosarcoma originating in mucous membrane of lower turbinate *81

Climate, what climate is best for diseases of upper respiratory tract.....542, 680

Coates, G. M.: Enormous abscess of frontal lobe following infection of frontal sinus; operation; recovery..... 544
Regeneration of mucous membrane of frontal sinus after its surgical removal (in dog).....642

Coffin, L. A.: Presidential address..... 540

Cold, common.....*133

Craig, R. H.: Treatment of early malignant condition of larynx by electrodesiccation and radium..... *39

Cranium; diagnostic value of epinephrine probe test in trauma of skull and brain *585
osteomyelitis of bones of, following inflammatory processes in nasal septum.. 834

Crowe, S. J.: Embryonic tissue in middle ear and mastoid.....*151

Cyst, dentigerous, of antrum of Highmore with unusual characteristics.....*311
dentigerous, of upper jaw involving antrum of Highmore.....*290
of lung; report of case.....*649, 844
of maxilla, Denker's operation in..... 399

Davenport, C. B.: Hearing in children when both parents have otosclerosis..... 685

Deafness: See also Hearing
application of medical and social science to problems of acquired deafness..... *1
masking effects of an interfering tone on a deafened ear.....*425
progressive, etiology of..... 113
statistical studies of children in public schools for deaf.....*190

Decalcification of temporal bones, use of x-ray for determining when decalcification is complete..... *14

Deformity of face caused by nasal allergy..*493

INDEX TO VOLUME 12

PAGE

Denker's operation in cysts of maxilla..... 399

Dennis, F. L.: Tuberculosis papillomatosa cutis of ear..... *86

Diathermy in cancer of auricle, results.... 250

Diplopia after external operation on frontal sinus 398

Druss, J. G.: Osteitis of petrous pyramid of temporal bone, associated with paralysis of external rectus.....*342, 695

Duel, A. B.: Report of financial committee 685

Duke, W. W.: Advance in field of allergy as related to otolaryngology.....*651
Deformity of face caused by nasal allergy in childhood.....*493

Dura mater injured at operation, treatment of 682

Dworetzky, J. P.: Immobilization of lungs in pulmonary tuberculosis, its influence on larynx..... 855

Dysphagia of septic origin resembling foreign body in esophagus..... 546

Dyspnea, laryngotracheal, pathology and treatment 118

Eagleton, W. P.: Unlocking the petrous pyramid 263
Value of vestibular tests in intracranial complications from suppurative diseases 717

Ear, angioma of eardrum, auditory canal, face, mouth, tongue, pharynx and larynx, rare case.....*246
cancer of auricle, result of surgery and surgical diathermy in..... 250
comparing anatomic studies on aqueduct of cochlea and its relation to subarachnoid space in brain..... 533
embryonic tissue in middle ear and mastoid, 2 cases.....*151
increased bone conduction in tuning fork experiments 533
infections, 5 years' study of relation of infection of ear and infection of intestinal tract in infants..... 698
middle, comparative functional tests of cochlea and of vestibule in course of acute inflammation of..... 829
middle, improvement of hearing due to operative treatment of adhesions in middle ear due to chronic suppuration.. 251
nystagmus following inflation in secretory catarrh of ear..... 532
nystagmus after insufflation of middle ear 534
relation between carcinoma of ear and cholesteatoma 535
tuberculosis papillomatosa cutis of..... *86
value of vestibular tests in intracranial complications from suppurative diseases of 717

Eggston, A. A.: Pathology of chronic sinusitis 548, *561

Electrocoagulation, pathology and intramural electrocoagulation of inferior turbinate 395

Electrodesiccation and radium in early laryngeal cancer..... *39

Electrosurgical extirpation of tonsils, clinical study of various methods employed with end-results.....*511

Embolism, thrombosis and embolic pulmonary infarct following submucous resection of septum..... 537

Embryonic tissue: See Mesenchyme

Endoscopy (president's address)..... 838
in examination of maxillary sinus..... 254

Epinephrine: See Adrenalin

PAGE

Epistaxis: See Nose, hemorrhage

Ersner, M. S.: Regeneration of mucous membrane of frontal sinus after its surgical removal (in dog).....*642

Esophagoscope, new..... 840

Esophagus, foreign body in, followed by mediastinitis *635, 845
stenoses of..... 836
stenoses from standpoint of roentgenologist 835

Ethmoid sinus; pathology of chronic sinusitis *561
zinc ionization of..... 537

Ethmoiditis, nonsuppurative..... 551
ocular disturbances in..... 679

Eye, significance of ocular disorders for otolaryngologic diagnosis..... 538
sensitivity on palpation of eyeball as a symptom of sinus disease..... 537

Face, deformity caused by nasal allergy in childhood *493
rare case of angioma of ear-drum, auditory canal, face, mouth, tongue, pharynx and larynx.....*246

Feinberg, S.: Nasal allergy as related to hyperesthetic rhinitis and hay-fever.... 405

Figi, F. A.: Primary carcinoma of trachea.*446

Fisher, J. A.: Thymus gland hypertrophy.. 855

Fistula, closure of alveolar fistula by scar tissue formation..... 536
